

# IMPORTANT INFORMATION ON CORONAVIRUS

While there is no documented risk of COVID-19 (novel coronavirus) transmission through blood, in an abundance of safety, we are recommending a **voluntary self-deferral** for certain donors.

Please do not donate blood if in the past 14 days:

1. You have been diagnosed with COVID-19.
2. You have been tested for COVID-19 (via diagnostic test) due to exhibiting symptoms or exposure (suspected or known) and have not yet received test results .
3. You have lived with, had close contact with, or provided care to an individual diagnosed with COVID-19, outside of a health care setting where infection control practices were employed.
